King ColorCore® is a versatile multi-color engravable high-density polyethylene sheet with multiple layers of contrasting colors. It is a superior homogeneous sheet, a product of a unique state-of-the-art continuous process called Polyfusion, manufactured to the highest standards in the industry.

King ColorCore® | King Plastic Corporation

1. Introduction. The invention of the first printing press around the 1440s facilitated rapid reproduction of text and images and dissemination of information. Current printed materials are produced using modern offset printing, which involves employing inks made up of light-sensitive chemicals to transfer text and images to printing papers.
